CONCERNING THE STATE FAIR.

The near approach of the State Fair

season suggests the thought that every

citizen can do something towards the suc-

cess of the State's annual exposition.

The Fair is a State institution, and where-

ever it might be located there would be,

and should be, a lively local interest in

its promotion. This is expected, and so

much so that if there is a lack of local in-

terest it is cause, and justly so, for re-

proach. The Fair is, to a certain extent,

repetitive; that is, its general features

are from year to year much the same, and

this is to be expected. There cannot be

constant novelty in the positions of in-

dustry and production. But there is

newness of the profound interest in the

comparison of the Fair and in the ob-

servation of the advances of the State, as

exemplified by the exhibits of production,

invention and discovery. There is also

positive interest taken in observing the

spirit of the commercial class toward the

Fair. Our rival cities look sharply for

the demonstrations made by the business

men of Sacramento at these expositions,

and by the concern of the Sacramento

merchant in them largely judges whether

he is stimulated by the spirit of the age

or is content to move in old-time grooves.

We are assured by judgments that have

weight, that the manifestations of interest

in the State Fairs by the merchant class

enters in no small degree into the esti-

mate whether the city is actuated by a

progressive spirit, and is alive to the

importance of making the State's annual ex-

hibitions matters of pride and local con-

cern. We have lately been made aware

that there is a great deal more of scrutiny

and criticism of this order than is much

suggested; and that it is not so much the

question of the number who exhibit

or concern themselves in the success and

the attractions of the Fair, as it is in the

manner of the manifestation, the charac-

ter of the displays that are made. The

commercial exhibitor had better not at-

tempt a display than to make one that

will not command respect, inspire ad-

miration, and excite even the commenda-

tion of his rival in other cities.

The agricultural, horticultural, and

victual and the stock-growing interests

must always remain the overshadowing

objects of attention in the State Fairs. To-

wards the enlargement and betterment of

the exhibitions in these classes, every citi-

zen locally related to the Fair, should con-

tribute, and should feel it his privilege to

do so, by communicating with the people of

the State generally upon the subject, for

interest in such matters is responsive to

interest shown. The capital city is the lo-

cality fully chosen by the State for its annual

expositions, and manifestations of concern

on our part that such expositions should

be made valuable to the State are always

received with satisfaction by the people—

only the few, and these the shortsighted

and unrepresentative, construe such man-

ifestations to be merely selfish. The mass

of the people, we repeat, are gratified when

the citizens of the capital city are notably

active in promoting the concerns of the

State Agricultural Society, and are correspond-

ingly displeased and repulsed when our

people are inactive and manifest but

indifferent concern in the matter. The

welfare of the people of this city, therefore,

stirring up interest in the Fair abroad,

the better pleased will be the people of

the State.

All Fairs now have some element

of amusement in their programmes of daily

exercises. The public taste demands it,

and properly so. The people leave their

homes and come to the State Fair not only

to exchange views upon questions of State

growth and soil production, and to witness

contests of speed and endurance, and to

observe the advance made in production

and in stock-breeding, but they wish to

make their visit a holiday occasion. They

may reasonably expect, therefore, to have

some appeal made to the fancy and the imagination,

upon other localities under similar circum-

stances. Yet there is always some truth

in these comments, mingled with vastly

more of misrepresentation. It would be a

wise and popular movement if there could

be put on foot a system of registration, by

which all possible extortion could be

traced—for, like other ills, it cannot thrive

in the light of publicity. It would do

more to advertise the State Fair legiti-

mately and effectively than any other en-

ergetic proceeding, were it possible at this

date to organize a system for assuring

visitors that they would have no difficulty

in securing hospitable entertainment at fair

cost. It is perfectly true that the self-

possession and clear-headed visitors never

have difficulty in such matters, for the

city is equal to the entertainment of a

vastly larger body of people than have

ever yet visited it; but the high success

that met the system adopted by the teach-

ers of San Francisco and the State in the

entertainment of visitors from the East a

year ago, and in providing them with

shelter, suggests that Sacramento can do

better infinite credit, the people of the

State great service, and much promote the

attendance at the State Fairs by a system-

atized method of providing all applicants

with temporary homes, and for detecting

and exposing any possible imposition.

Such action would certainly remove the

very remotest cause for complaint, and

tend to increase the attendance at these

annual expositions.

THAT the new cruiser Boston should

have been run on a rock in Narragansett

Bay is a disgrace to the seamanship that is

employed in the United States Navy. No

waters are better known, and that such

shipwreck as found a chartered rock in a

sheet of water so familiar, should have

had the piloting of the ship, is really

cause for an official inquiry.

REITERING to the inter-state commerce

law, the San Francisco Call is to be credited

with this bit of wisdom in expression: "A

law which enables a foreign company to

take traffic which belongs by natural laws

to American transportation companies can-

not be said to be the sum of human wis-

dom."

BURKE, the Cronin suspect, has arrived

in Chicago in close custody. If it is not

discovered through his arrest who the

real murderer of Dr. Cronin was, we do

not believe the mystery will be solved at

all. All the facts point to Burke as being

possessed of the key to the whole affair.

WASHINGTON CULLINGS.

How the Argentine Republic Secures Foreign Labor.

PRESIDENT GOES TO BAR HARBOR.

Nothing Will Be Done About the Black Diamond—There is No Rush About It.

(SPECIAL DISPATCHES TO THE RECORD-UNION.)

ARGENTINE REPUBLIC.

Encouraging Immigration to the Extent of \$1,000,000 Announced.

WASHINGTON, August 6.—Before leaving Buenos Aires for home United States Minister Hanna wrote a short report to the State Department on the Argentine Republic. He says it is settling in from all the countries of Europe, and the great numbers of arrivals is a testimonial to the general satisfaction with the Argentine Republic government to the extent of least of having the passages paid from the starting point to the destination in the interior.

The amount thus paid in March is estimated at \$1,000,000, or at the rate of \$12,000 a year. Already this vast influx, the Minister says, is beginning to tell on the exports of corn. Last year the country shipped 44,000 tons of corn. This year it will go above 60,000 tons.

Mr. Hanna further says: "In the vast field of merchant ships and the great steamers coming here to trade from every European port, the United States flag is barely seen, but it is hoped and believed that the policy of the new Administration on the subject of encouraged steam navigation between the United States and South American ports will successfully solve this embarrassment."

MORE LIGHT.

Electric-Light Plants to be Placed in All the Navy Yards.

WASHINGTON, August 6.—Provision was made in the last naval appropriation bill for the purchase of electric-light plants for the navy yards at Washington, New York, Norfolk and San Francisco. A plant will be first placed in the Washington Navy Yard, and bids for furnishing this plant were opened at the Bureau of Yards and Docks at the navy yard this afternoon. There were five bids, the lowest of which was that of the Schuyler Electric Company, of Middletown, Conn., \$13,730. The specifications call for two engines, four dynamos, seventy-five single and twenty-two double arc-lights and 25,000 feet of insulated wire. If the Schuyler Electric Company plant in the Washington Navy Yard is successful, proposals will be asked for the other plants.

PRESIDENTIAL PARTY.

Taking an Early Departure for Boston and Bar Harbor.

WASHINGTON, August 6.—The Presidential party left at 9:30 this morning, via the Pennsylvania road, in the private car of President Roberts. Beside the President were Private Secretary Halford and Secretaries Windom, Rusk and Proctor. Rusk only goes as far as New York, to investigate the transportation of mail, while Windom and Proctor stop at Boston on public business.

Before leaving the President pardoned John W. Barker, of Georgia, and Orin Staley, of Indiana, convicted of counterfeiting. The former was sentenced in June, 1887, to five years in the Federal penitentiary, and the latter in March last to six months in jail and to pay costs. Both prisoners were granted because of ill health and Staley's poverty.

THOSE CHINESE TOURISTS.

They Are Now Far Out on the Pacific, En Route to Their New Land.

WASHINGTON, August 6.—Secretary Windom has received the following telegraphic dispatch, signed by A. N. Towne, from San Francisco: "The two Chinese moving tourists of the United States, from Havana to Hongkong, recently permitted to land at New Orleans by the steamer from Washington, left on the 27th, arriving at San Francisco on the evening of the 31st, and sailing on the morning of the 1st inst. A party of six Chinese, leaving New York on the same date, made the transcontinental journey, and also sailed on the Belgic."

APPOINTING EX-SOLDIERS.

All Things Being Equal the Soldiers to be Given the Preference.

WASHINGTON, August 6.—In response to a letter of the Chief Clerk of the Post-office Department, the Postmaster General for the Postoffice Department wrote that when the Civil Service Commission certified three names for appointment and one was a discharged soldier or sailor, he must be selected for the place.

This opinion was confirmed by the Attorney-General, who, however, brought out more strongly the point that the appointing power still had the judging as to the ex-officers' capabilities, and that his decision by putting him in the place, though all things being equal, the soldier must be appointed.

RAILROAD LANDS.

Washington Territory—Dewalt, Mason county, Martha E. Watson, Postmistress.

Nothing Will Be Done About It.

WASHINGTON, August 6.—As yet nothing has been heard officially by the Government from the commander of the Rush relative to the escape of the Black Diamond, in fact nothing is expected until at least two weeks yet, as it will take that time for a message to come from Alaska to Washington. A general belief is that the vessel is in the detour, but nothing will be done about the escape of the vessel.

BOMBAY RAILWAYS.

WASHINGTON, August 6.—The United States Congress of Bombay reports that the length of the various lines of railway under control of the Government of Bombay in the year 1888 was 4,308 miles, or 282 miles more than the previous year. On the great Bombay and Central India Railway the work of doubling the line was in progress on the Julapur and Nagpur lines.

On a vacation.

WASHINGTON, August 6.—Secretary Tracy left this afternoon for Brooklyn where he was accompanied by his family. He will proceed to Bar Harbor on the United States steamship Dispatch and remain several weeks.

The Attorney-General also left this afternoon for a two weeks' vacation in India.

This leaves Secretary Noble the only Cabinet member at his post, and he is expected to leave for Missouri the latter part of the week.

Advantage was also taken of the President's absence for politicians to make visits to their homes, which many of them have not seen since February. Now, as it is generally believed no more appointments will be made for a month, they are going home.

ALLEN CONTRACT LABOR.

WASHINGTON, August 6.—District Attorney John at Pittsburgh has made a report to the Secretary of the Treasury on the investigation of the cases of twenty-five English glass-blowers employed at the Pennsylvania, Penn., in which he states that the alien contract labor law was violated by the Pennsylvania Glass Works Company, and the great numbers of arrivals is a testimonial to the general satisfaction with the Argentine Republic government to the extent of least of having the passages paid from the starting point to the destination in the interior.

The amount thus paid in March is estimated at \$1,000,000, or at the rate of \$12,000 a year. Already this vast influx, the Minister says, is beginning to tell on the exports of corn. Last year the country shipped 44,000 tons of corn. This year it will go above 60,000 tons.
